Buying into the pension fund

By law, if you change jobs and join your new employer's pension plan, the termination benefits of your previous pension plan as well as any other vested benefits provided by Pillar 2 pension plans must be transferred to the new pension plan (Article 4 para. 2^{bis} Swiss Federal Law on the Portability of Benefits/FZG). Since 1 January 2006 such vested benefits must be added to the voluntary buying-in benefits even if they are not subject to the transfer obligation, i.e. irrespective of the change of employment. Moreover, in the case of persons who were formerly self-employed, a defined percentage of the pension capital of the private pension provision plan (Pillar 3a) must be taken into account (Article 60a BVV2). In addition the buying-in options are limited in the case of persons who move here from abroad after 1 January 2006 (Article 60b BVV2).

Furthermore, persons who have taken early retirement and remain employed or subsequently return to employment may only buy into a pension plan provided the retirement savings available to them on the date of their early retirement are factored into the calculation of the requisite purchase sum.

Please note that the benefits cannot be withdrawn in the form of capital within the next three years.

To enable us to calculate a possible purchase sum, therefore, please complete the enclosed declaration and return it to us within the next few days.

Many thanks for your assistance. Please do not hesitate to contact us if you require further information.

Yours sincerely
